TURISTIK HUDD RAQOBATBARDOSHЛИGIGA OID NAZARIY BILIMLARNING SHAKLLANISH BOSQICHLARI

Annotatsiya: ushbu maqolada turistik hudud raqobatbardoshligiga oid nazariy bilimlarning shakllanish bosqichlari qiyosiy va raqobat ustunliklari konsepsiysi, mikro va makro yondashuv, tadqiqotlarni hududiy tizimlash kabi usullardan foydalanilgan holda asoslab berilgan. Shuningdek, G.Kruch va B.Ritchi tomonidan yaratilgan “*Turistik hudud raqobatbardoshligi va barqarorligi modeli*” muammosiga tizimli yondashilgan konseptual andaza sifatida ko‘rib chiqilgan hamda model asosida mamlakatlarning turizm raqobatbardoshligini aniqlashga oid tadqiqotlar tahlil qilingan. Mamlakatning (makro) turistik raqobatbardoshligi, pastdan yuqoriga qarab 7M ko‘lamda turizm sohasidagi har bir bo‘g‘inni izchillik bilan takomillashtirish, o‘zini-o‘zi boshqarish, o‘zaro hamkorlikda raqobatlashish tamoyillariga asoslangan boshqaruv tizimini joriy qilish orqali erishilishi ilmiy asoslangan.

Kalit so‘zlar: turistik hudud, destinatsiya, raqobatbardoshlik, qiyosiy va raqobat ustunliklari, barqaror rivojlanish, makro ko‘lam.

Kirish

Turli ilmiy manbalarda raqobatbardoshlikka ikki yoqlama qaralib, birinchisi, mikro yondashuv bo‘lib, raqobat kategoriyasini tahlil qilish jarayonida aniq firma yoki sanoat asos qilib olinsa, ikkinchisi, makro yondashuv bo‘lib, e’tiborni mamlakatga qaratadi. Ushbu yondashuvlar bir-birini to‘ldiruvchi va o‘zaro bog‘liq bo‘lib, ularda qo‘llaniladigan tahliliy asos va o‘lchov mezonlari turlicha. Ko‘p hollarda, mamlakatlar raqobatbardoshligini aniqlash jarayonida makro ko‘lamdagи tahlilni mikro mezonlarni qo‘llash orqali amalga oshirish, raqobatbardoshlikning mohiyati va xususiyatlari bo‘yicha kelishmovchilik va noaniqliklarga olib keladi¹.

Global va makro muhit uzlusiz o‘zgarish va rivojlanish holatida bo‘lganligi sababli, turistik hududlarni boshqarish bilan shug‘ullanadigan mutaxassislar sohaning ushbu xususiyatidan kelib chiqqan holda, umumiy vaziyat oqibatlarini oldindan ko‘ra bilish va mos ravishda strategik boshqaruv usullarni qo‘llashlarini taqazo etadi. Turizm sohasi ochiq tizim bo‘lib, undan tashqarida global va makro ko‘lamda vujudga keladigan vaziyatlar va o‘zgarishlar ta’siriga juda seziluvchanligi bilan farqlanadi. Ya’ni, dunyoning ma’lum nuqtasida vujudga kelgan holat O‘zbekiston hududida bir qator oqibatlarga olib kelishi mumkin. Makro muhit omillari 6 guruhga ajratilib, iqtisodiy, texnologik, ekologik, siyosiy va me’yoriy-huquqiy o‘zgarishlar, ijtimoiy masalalar hamda uzlusiz o‘zgarishda bo‘lgan demografik vaziyatni qamrab oladi.

Mavzuga oid adabiyotlar tahlili

Halqaro raqobatbardoshlikka mikro yondashuv tadbirkorning tashabbuskorligi (ijodkorligi), tabiatni muhofaza qilish, texnologik rivojlanish, malakali kadrlar va inson

¹Krugman P. Competitiveness: a dangerous obsession //Foreign Aff. – 1994. – T. 73. – P. 28.

resurslarini takomillashtirish bilan chambarchas bog'liq¹. J.Spender² M.Porterning tezisini qo'llab-quvvatlagan holda, xalqaro raqobatbardoshlikning asosini intelektual mulkni shakllantirish va innovativ yo'llar orqali texnologik o'sish evaziga yangi mahsulot, texnologiya, tashkilot va sanoatlarning paydo bo'lishiga sababchi, ya'ni tadbirkorlarning tavakkal qilishga yo'naltirilgan madaniyatidir, deb ta'riflaydi. M.Porterning³ fikricha, xalqaro ko'lamda iqtisodiy muvaffaqiyatga erishishga olib keluvchi asosiy harakatga keltiruvchi kuch – tadbirkorlik sub'ektlaridir. Axborot va kommunikatsiya texnologiyalarining rivojlanishi va sayohat qilishning qulayligi, shu bilan birga global ko'lamda iqtisodiy ochiqlik, tadbirkorlik sub'ektlarini halqaro ko'lamda raqobatbardoshlikka olib keluvchi muhim omillardir. M.Porter⁴ tadbirkorlik sub'ektlarining raqobatbardoshligini ularning kattaligi, tuzilmasi, imkoniyatlari, resurslari va tanlagan strategiyalari kabi omillar belgilashini uqtiradi. E.Maleskinning⁵ fikricha, raqobatbardoshlik firmalarning yakka tartibda erisha olmaydigan texnologik yangiliklar va bilimlardan bahramand bo'lishga olib keladigan yirik hamkorlik loyihamalarida va strategik birlashmalarda qatnashuvchanlik darajasiga bog'liq. Xullas, «raqobatbardoshlik - unumdorlik, samaradorlik, innovatsiya va ixtisoslashuvga o'rtta va uzoq muddatda ta'sir etuvchi tuzilmaviy o'zgaruvchanlarga asoslanadi»⁶. Korxonalarning samaradorligi ularning bozorlar va resurslar uchun raqobatlasha olish qobiliyatiga bog'liq ekan, mikro nuqtai nazardan, ularning muvaffaqiyati bozordagi ulushi va rentabelligi kabi ko'rsatkichlar asosida hisoblanadi.

Raqobatbardoshlikka makro yondashuv jarayonida tahvilning asosini mamlakatlar tashkil qiladi. Mamlakatlarning iqtisodiy samaradorligi siyosiy, madaniy, ijtimoiy va iqtisodiy vaziyat asosida shakllanadi⁷. U jon boshiga YaMM, tashqi savdo balansi va valyuta zahiralari, bandlik darajasi, inflyatsiya, to'g'ridan-to'g'ri xorijiy investitsiyalar va qo'shimcha qiymat yaratuvchi sohalar nuqtai nazaridan hisoblanadi. Kattaligi, joylashuvi, rivojlanish bosqichlari, mehnat bozori egiluvchanligi va ochiqligi kabi omillar iqtisodiyotning samaradorligiga sezilarli ta'sir etadi. M.Porter⁸ strategik joylashuvga katta e'tibor berib, mamlakatlar raqobatbardoshligiga yetakchi soha va innovatsion klaster hududlarga nisbatan geografik yaqinlik omili belgilovchi ahamiyat kasb etishini alohida ta'kidlaydi. M.Porter, davlatning roli mamlakat ishlab chiqaruvchilarining raqobatbardoshligini oshiruvchi eng maqbul me'yoriy-huquqiy baza, istitutsional va ta'lim tizimi, axborot va asosiy infratuzilma bilan ularni ta'minlashi, shuningdek ratsional makroiqtisodiy boshqarish bilan chegaralanishi, to'g'ridan-to'g'ri xorijiy investitsiyalarga nisbatan iqtisodiyotning jozibadorligini oshirishi hamda eng qulay biznes muhitni shakllantirishi maqsadga muvofiq, degan xulosaga keladi.

Tadqiqot metodologiyasi

Turistik hudud raqobatbardoshligiga oid nazariy bilimlarning shakllanish bosqichlarini tadqiqot qilish jarayonida mantiqiy, qiyosiy, empirik, tizimli tahlil, analiz, sintez, monografik kuzatuv, ekspert baholash, tahlil qilish kabi usullardan foydalanilgan.

Turistik hudud raqobatbardoshligi - turistik hududlarning barcha bozorlarda o‘z o‘rnini saqlab qolish, vaqt oralig‘ida sifat va ko‘lamini muntazam oshirib borish qobiliyatidir¹. Bundan tashqari, **raqobatbardoshlik** - turistik hududlarning o‘z raqobatchilariga nisbatan bozordagi salmoqni saqlab turib mavjud resurslardan oqilona foydalangan holda qo‘srimcha qiymatga ega mahsulot (xizmat)larni yaratish va ularni integratsiyalash qobiliyati² hamda tashrif buyuruvchilarning ehtiyojlari hudud yetkazib berayotgan mahsulot va xizmatlar evaziga, boshqa turistik hududlar bilan qiyoslaganda, to‘laroq qondirilishidir³.

Yuqoridaq ta’riflar bilan birga, oxirgi 20 yilda turistik hududlarning raqobatbardoshligini aniqlashning turli uslublari ham ishlab chiqilgan. Bularga, turistik hududlar raqobatbardoshligining to‘rt tamoyili, ya’ni *sohani rivojlantirish uchun qulay sharoit, turizmning yetakchi soha ekanligi, turli bozorlarda kuchli sotish kanallarining mavjudligi hamda tez sur’atlarda o’sayotgan xususiy sektor*⁴. Ayrim turizm sohasi tadqiqotchilarning fikricha, nazariyotchi M.Poter tomonidan ishlab chiqilgan raqobatbardoshlikning umumiy modellari turizm sohasiga ham qo’llanilishi mumkin. Haqiqattan ham, M.Poter tomonidan ishlab chiqilgan raqobatbardoshlik modeli asosida⁵ 1993 yilda “Turizm raqobatbardoshligining Kalyari modeli” (Calgary Model of Tourism Competitiveness) yaratilib, u *turistik hudud jozibadorligi, turistik hudud menejmenti va marketingi, sohalararo hamkorlik, o’zaro axborot almashinuvi va ilmiy tadqiqot, hududning turistik ehtiyojlarni qondirish qobiliyati* kabi 5 ta tayanch konsepsiya o‘z aksini topgan⁶.

Turistik hududlarning xalqaro raqobatbardoshligiga oid barcha ilmiy tadqiqotlar qiyosiy va raqobat ustunliklari paradigmaiga asoslanadi. Xalqaro raqobatbardoshlik muammosining nazariy konsepsiyasini ishlab chiqish maqsadida iqtisodiyot nazariyasi⁷ hamda menejmentga oid manbalarda⁸ bir-biridan keskin farq qiladigan yondashuvlar ilgari suriladi. Aytish joizki, sanoat raqobatbardoshligiga asoslanib, ushbu ikki konseptual andaza bir-birini to‘ldirgan holda, turistik hududlar xalqaro ko‘lamda raqobatlashish jarayonlarini tushunishda qo‘l keladi.

Turistik hudud raqobatbardoshligi muammosini bir qator xorijiy tadqiqotchilar o‘rgangan bo‘lib, G.Kruch va B.Ritchi “Turistik hudud raqobatbardoshligi - tashrif buyuruvchilarga taqdim etadigan umumiy jozibadorlik va ijobjiy sayohat taassurotlari potensial tashrif buyuruvchilar uchun ochiq bo‘lgan ko‘plab muqobil turistik hududlarga nisbatan teng yoki ulardan ustun bo‘lishining ta’minlanishidir”⁹ deb ta’rif bergan. D’Harteze esa “turistik hududlarning bozordagi o‘z salmog‘ini barqaror saqlab qolish bilan birga vaqt oralig‘ida uni yaxshilab borish qobiliyatidir”¹⁰ deydi. M.Enrayt va J.Nyutonning fikrlaricha, “potensial turistlarni jalb qila olish va ehtiyojlarini qondirish imkoniyatiga ega turistik hududlar raqobatbardosh sanaladi”¹¹. S.Hassan “boshqa

raqobatchilarga nisbatan bozordagi salmoqni saqlagan holda resurslardan oqilona foydalanib qo'shilgan qiymat mahsulotlarini yaratish va birlashtirish qobiliyatidir"¹ degan aqidani ilgari suradi.

Turistik hududlar raqobatbardoshligi muammosi XX asrning 90 yillaridan boshlab faol tadqiq qilina boshlangan. Bugungi kunda hududlarda turizmni rivojlantirish ularning raqobatbardoshligini oshirmsandan turib amalga oshirib bo'lmasligini e'tiborga olib, xorijda orttirilgan tajriba va nazariy bilimlarni o'rghanish va ularni joriy qilish mexanizmlarini ishlab chiqish masalasi dolzarb bo'lib hisoblanadi. Xorijiy iqtisodiy adabiyotlarda ayni muammoning turli jabhalari va nazariy yondashuvlari mavjud. Turistik hudud raqobatbardoshligi masalasiga oid amalga oshirilgan tadqiqot ishlarini geografik jihatdan quyidagicha tizimlashtirish mumkin (1-jadvalga qarang).

Turistik hudud raqobatbardoshligining umumiyligini konseptual modeli J.Kruch va J. Ritchi¹ tomonidan 1999 yilda taklif qilinib, 2005 yilda takomillashtirilgan². Bu olimlar tomonidan tanlangan tadqiqot metodologiyasi turizm sohasi mutaxassislar (hududdiy boshqaruvchilar) bilan amalga oshirilgan intervyyu hamda nazariy tadqiqotlarning uyg'unlashuvi natijalariga asoslanadi. Tadqiqotning metodologik asosi "Ieraxik tahlil uslubi - ITU" deb ataladi (*Analytic Hierarchy Process – AHP, Metod analiza ierarxiy - MAI*). ITU — murakkab muammolar bo'yicha qaror qabul qilishda matematik usullar orqali tizimli yondashuvni qo'llashni nazarda tutib, AQShlik matematik Tomas Saati tomonidan ishlab chiqilgan³. Ushbu metodologiyaga asoslanib, G.Kruch va B.Ritchi turistik hududlar raqobatbardoshligining 36 ta asosiy omillarini ajratib, quyidagi 5 ta omil eng muhim degan xulosaga kelganlar:

Birinchi guruh "**Qo'llab-quvvatlovchi omillar va resurslar**" deb ataladi va quyidagilarni qamrab oladi:

Infratuzilma: yo'llar, transport tizimi, sog'liqni saqlash tizimi, kommunikatsiya tizimi, davlat tomonidan ko'rsatiladigan xizmatlar va davlat tashkilotlari, ichimlik suvi bilan ta'minlanganlik, huquq tartibot organlari, bank tizimi, ta'lif tizimi;

Qo'llab-quvvatlovchi resurslar: mahalliy inson resurslarining sifati, orttirilgan bilim va kapital resurslar, ta'lif va tadqiqot institutlari, moliya institutlari, aholiga xizmat ko'rsatishning turli sohalari;

Mamlakatga kirishning soddaligi: havo transportiga oid qonunchilikdagi yengilliklar, kirish viza va ruxsatnomalari, xalqaro yo'l va havo transporti aloqalari, turli transport vositalari o'rtaida raqobatning mavjudligi;

Mehmondo'stlik: aholining tashrif buyuruvchilarga nisbatan iliq munosabati, yordam qo'lini cho'zishga moyillik darajasi;

Ishbilarmonlik: turistik hududda faoliyat yurgizayotgan tadbirkorlarning ishbilarmonlik qobiliyatini;

Siyosiy iroda: barcha siyosatchilar va boshqaruv organlarida band kishilar turizm sohasi mamlakat ijtimoiy-iqtisodiy rivojlanishida belgilovchi ekanini faqat tan olishi emas, balki mafkurasiga aylangan bo'lishi.

Ikkinchi guruh "**Asosiy resurslar va diqqatga sazovor joylar**" bo'lib, quyidagi omillarni qamrab oladi:

maxsus tadbirlar: turistlarni jalb qilishga qodir bo'lgan festivallar, bayramlar, sport o'yinlari va hokazolar;

tabiat va iqlim: turistik hududning tabiiy diqqatga sazovor joylari, qulay iqlimning mavsumiy davomiyligi;

madaniyat va tarix: turistik hududning madaniy va tarixiy merosi;

xilma-xil turistik faoliyat: turistik hudud tashrif buyuruvchilarga turli sayohat tajribalari va imkoniyatlarni taklif qila olishi;

ko'ngilochar joylar: teatr, konsert, kulgu festivallari, opera va sirk shular jumlasiga kiradi;

turizm infratuzilmasi: joylashtirish muassasalar, restoranlar, transport vositalari, hordiq chiqarish joylari, tematik bog'lar, muzeylar, san'at galeriyalari, ko'rgazma va konferensiya markazlari, aeroportlar;

bozor rishtalari: turistlarni vujudga keltiruvchi bozorlar bilan chuqur madaniy va iqtisodiy aloqalarning mavjudligi.

³Саати Т. Л. Об измерении неосъяземого. Подход к относительным измерениям на основе главного собственного вектора матрицы парных сравнений // Журнал "Cloud Of Science". 2015. Т. 2. № 1.

Uchinchi guruh “**Turistik hudud menejmenti**” deb ataladi va quyidagi omillarni o‘zida qamrab oladi:

boshqaruv: turistik hududni boshqaruvchi tuzilma faoliyatining sifati va nufuzi);

marketing: marketing faoliyati orqali turistik hududning tashrif buyuruvchilarni jalg qila olish va ehtiyojlarini qondirish qobiliyati;

xizmat ko‘rsatish sifati: tashrif buyuruvchilarga ijobiy sayohat tajribasini yetkaza olish qobiliyati;

axborot va tadqiqot: qaror qabul qilish jarayonida qo‘l keladigan axborotlarni yig‘ish tizimining shakllanganligi;

inson resurslarini rivojlantirish: turizm sohasi uchun malakali kadrlarni tayyorlash dasturlarining mavjudligi;

moliya va kredit tizimi: turizm sohasini rivojlantirish moliyaviy dasturlarining mavjudligi;

tashrif buyuruvchilar menejmenti: turistlarning salbiy yoki ijobiy taassurotlarini nazorat qilish dasturlari;

inqirozni boshqarish (krizis menejment): favqulodda holatlar va inqiroz davrlardan chiqib ketishga tayyorgarlik darajasi;

resurslarni boshqarish: mavjud resurslardan oqilona foydalanish va ularni asrabavaylashga qilinadigan harakatlar ko‘lami.

To‘rtinchchi guruh “**Turistik hududga oid siyosat, rejalashtirish va rivojlantirish strategiyalari**” deb ataladi va u quyidagi omillarni o‘zida qamrab oladi:

tizimli yondashuv: turistik hududda faoliyat ko‘rsatadigan barcha davlat va nodavlat tashkilotlarining butun tizimning bir qismi ekanligini anglash darajasi;

ustuvor rivojlanish yo‘nalishlari: davlat va nodavlat tashkilotlari tomonidan rivojlanish ustuvor yo‘nalishlarining tanlanganligi;

istiqbolni ko‘rish: turistik hududni tashkil etuvchi barcha jismoniy va yuridik shaxslarning kelajakni ko‘ra bilish qobiliyati;

brending va bozordan joy olish: turistik hududning imijini shakllantirish uchun amalga oshirilgan tadbirlar;

rivojlanish: turizmni rivojlantirish siyosatining sifati va muvofiqligi;

raqobatchi va hamkorlar tahlili: turistik hudud raqobatchilarini global ko‘lamda tahlil qilish asosida rivojlanish strategiyalarini belgilash;

monitoring va natijalarini baholash: raqobatbardoshlikni oshirish maqsadida amalga oshirilayotgan ishlarning natijalariga baho berish, monitoring o‘tkazish hamda dasturlarni uzluksiz takomillashtirib borish;

audit: erishilgan moliyaviy natijalarning davriy auditini amalga oshirish evaziga, turistik hudud raqobatbardoshligining kuchli va kuchsiz tomonlarini aniqlashga erishiladi.

Oxirgi, beshinchi guruh “**Kuchaytiruvchi va belgilovchi omillar**” deb atalib, turistik hudud raqobatbardoshligini oshirish yoki aksincha chegaralashga xizmat qiluvchi quyidagi omillarni o‘zida qamrab oladi:

geografik joylashuv: turistlarni vujudga keltiruvchi asosiy bozorlarga nisbatan geografik joylashuv;

xavfsizlik va tinchlik: turistik hududning turistlar xavfsizligini ta’minalash darajasi;

narx-navo: turistik hududning hamyonbopligiga ta’sir etuvchi omillar;

o‘zaro bog‘liqlik: boshqa turistik hududlarga nisbatan yaqin yoki uzoqda joylashganligi;

mashhurlik va imij: turistik hududning mashhurlik darajasi;

sig‘im: turistik hududda shakllantirilgan turistik infratuzilmaning sig‘imi.

Olimlarning fikricha, modelda ko‘rsatilgan raqobatbardoshlik omillarini tizimlashtirish, turistik hududlarni yanada samarali boshqarish imkonini beradi. Nazariy tadqiqotlar va amaliyotga qo‘llash nuqtai nazaridan, G.Kruch va B.Ritchilar tomonidan taklif qilingan “Turistik hudud raqobatbardoshligi va barqarorligi modeli”ning o‘ziga xos xususiyati, qiyosiy va raqobat ustunliklarini bir-biridan ajratilganidir (1-rasmga qarang).

Qiyosiy ustunliklarga inson resurslari, tabiiy resurslar, to‘plangan bilim, kapital, infratuzilma va turistik infratuzilma, tarixiy va madaniy resurslar kiritilgan. Ya’ni, olimlarning fikricha qiyosiy ustunliklar turistik hududdagi mavjud barcha resurslarni qamrab olsa, raqobat ustunliklari ayni resurslardan samarali foydalanishni bildiradi.

Xulosa va takliflar

Xulosa qilib aytganda, G.Kruch va B.Ritchi tomonidan yaratilgan “*Turistik hudud raqobatbardoshligi va barqarorligi modeli*” muammosiga tizimli yondashilgan konseptual andaza bo‘lib xizmat qiladi. Ushbu modelni takomillashtirish va raqobatbardoshlikning ma’lum jabhalarini tadqiq etishda turli tadqiqotchilar tomonidan keng qo‘llanilib kelinmoqda. Jumladan, E.His¹ ayni modeldan Janubiy Afrika Respublikasi turistik raqobatbardoshligini oshirish istiqbollarini belgilashda keng foydalangan. L.Dyuer va S.Kim² o‘z tadqiqotlarida turistik hudud raqobatbardoshligining bir nechta tanlangan ko‘rsatkichlarni baholash jarayonida J.Kruch va J.Ritchi “*Turistik hudud raqobatbardoshligi va barqarorligi modeli*”da keltirilgan indikatorlarga asoslanganlar.

Qiyosiy ustunliklar turistik hududdagi mavjud barcha resurslarni qamrab olsa, raqobat ustunliklari ayni resurslardan samarali foydalanishni bildiradi. Ya’ni, turizmni rivojlantirishning yaxlit konsepsiyasi va turizmni iqtisodiyotning strategik sektoriga aylantirishning muhim sharti, sohada innovatsion boshqaruv usullarini qo‘llash bo‘lib hisoblanadi.

Bizning fikrimizcha, turistik ehtiyojlar turli ko‘lamga ega bo‘lib, sayohat maqsadidan kelib chiqqan holda 7M (mono, mini, mikro, meta, mezo, makro, mega) ko‘lamda amalga oshadi. Agar sayohat maqsadi Buxoro shahrida joylashgan Ark qo‘rg‘onidagi muzey bo‘lsa, mijoz ehtiyojining qondirilishi yoki aksi muzeysda faoliyat ko‘rsatadigan gidga borib taqalib, *turistik hudud raqobatbardoshligining mono ko‘lamini* bildiradi. Shu tariqa, oilaviy korxona maqomidagi milliy uy mehmonxonada ko‘rsatilgan xizmat, turistik hududning *mini ko‘lamdagi raqobatbardoshligini* o‘zida aks etadi. Umumovqatlanish muassasalarida ko‘rsatilgan xizmat hudud raqobatbardoshligining *mikro* ko‘lami bo‘lib hisoblanadi va u mas’uliyati cheklangan jamiyat maqomidagi tashkilot tomonidan yetkaziladi. *Meta* ko‘lamdagi raqobatbardoshlik viloyat ko‘lamida shakllantirilgan yo‘l infratuzilmasi, hududiy transport xizmatlari, hududiy ekologik barqarorlik, kommunikatsiya kabi sohalardagi holatni qamrab oladi. *Mezo* ko‘lamda mintaqalararo xizmat ko‘rsatish tarmoqlarining joriy qilinganligi bilan baholanadi. *Makro* ko‘lamdagi raqobatbardoshlik mamlakat imiji, xavfsizlik, barqaror ekologik holat, aholi farovonligi, milliy ko‘lamdagi temir yo‘l va avia tashuv xizmatharining sifatiga bog‘liq bo‘ladi. *Mega* ko‘lamdagi raqobatbardoshlik davlatlararo yo‘l-transport infratuzilmasining rivojlanganligi, bir-nechta mamlakatni qamrab oluvchi turistik yo‘nalishlarning shakllanganligi va turoperatorlar orasida o‘zaro manfaatli munosabatlar tizimining yo‘lga qo‘yilganligi bilan baholanadi. Ya’ni, mamlakatning (makro) turistik raqobatbardoshligi, pastdan yuqoriga qarab 7M ko‘lamda turizm sohasidagi har bir bo‘g‘inni izchillik bilan takomillashtirish, o‘zini-o‘zi boshqarish, o‘zaro hamkorlikda raqobatlashish tamoyillariga asoslangan klasterlar shaklidagi boshqaruv tizimini joriy qilish va ularni qo‘llab-quvvatlash, barqaror rivojlanish konsepsiyasiga xos tamoyillarga asoslangan islohotlarni amalga oshirish evaziga erishiladi.
